Dear Mr. Scroggins:

As per our discussion and your request, I have reviewed the information on the Ultra Germicidal Air Probe Sanitizer. In my opinion, this device has merit for improving air quality in the air-conditioned homes and offices.

I have personally had these units installed in both my office air-conditioning systems and those in my home. I have been pleased with the results as have my patients, office staff, and family. It is unfortunate that this type of product has not been available on the market unit recently.

Sincerely,

Daniel N. Tucker, M.D.
