Mr. William Hargrett
PO Box 1100
West Palm Beach, FL 33408

Dear Bill:

I want to thank you for your prompt installation of the Air Probe Sanitizer. It has already paid dividends in terms of results.

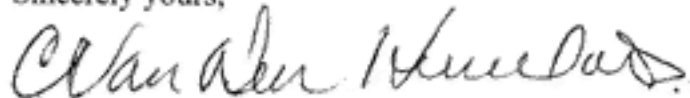

My five year old grandson has severe allergies which makes breathing difficult, especially at night. My daughter has had to run a humidifier almost nightly, and still found him on more than one occasion propped up on two pillows, trying to breathe. He never slept soundly through the night and has had dark circles under his eyes. Every morning he suffered with a stuffed up head that he was unable to clear. After the installation, we saw immediate results. My daughter first noticed a cleaner smell in the air when she returned home from work that evening. My grandson slept soundly throughout that first night without either a humidifier or being propped up on two pillows. The dark circles under his eyes have faded, and my grandson is finally sleeping comfortably throughout the night.

My wife and my son-in-law have also noted definite improvements in their allergies.

It wouldn't surprise me if your installations become a standard requirement.

Thanks again.

Sincerely yours,

C. Van Den Heuvel, M.D.
