Abington, Pennsylvania 19001

August 27, 1997

Dear Mr. Scroggins,

Now that the Air Probe Sanitizer has been installed in our Central Air Conditioning Unit, the benefits that I have received appear to be boundless.

My husband certainly appreciates not being awakened by my coughing.

It is wonderful to be able to sleep and breathe through the night.

I have had the installation only a few weeks and wish it had been brought to my attention sooner.

Thank you for doing such a good job for a "heavy breather".

Sincerely,

Elise Z. Waintrup  
(Mrs. Harold B.)
